Steak Electronics: PH Sensor

Steak Electronics

2019

1 Overview

What could we measure with a PH Sensor and an Arduino as a data log?

2 Installation

Built board up with a Nokia 5110 LCD, and an Uno on a piece of plywood.
On the Nokia, be careful what guide you follow on this. As usual, the internet is a piece of shit, and official arduino docs https://create.arduino.cc/projecthub/muhammad-aqib/interfacing-nokia-5110-lcd-with-arduino-7bfcdd [1] are full of lies.

This particular doc gives you

---

[1] So great that we could deprecate the useful Arduino wiki, and bring in new docs that are incorrect...
