Steak Electronics: Todo List

Steak Electronics

2019

Todo

- test conformal coating on an arduino and one without. test temperature changes over time. Need some temperature sensors to test variuos points (e.g. vreg, micro) and try different things (high intensive cpu usage, vs. high power draw from vreg to something).

- steak electronics sticker. i guess from psprint for now

- self hosted data loggers, using mysql and grafana

-
